PRAYER/ST REET	15	120	5	
EMBASSY	2	12	5	
CRUSADE/ MUSIC	5	550	13	

# CRUSADE EVANGELISM

A gospel crusade is an event that brings both believer and unbelievers together to hear the life changing message of Jesus christ. Organising crusades requires careful planning coordination and attention to details.

1. We prayed to receive instruction on where to carry out the crusade.
2. We go there to do one on evangelism and at the same time locate the MFM branch in the area that is close the area.

- We plan with the leadership of such branch.
- We decide the most effective bait that can pull them to the program
- The most appropriate venue
- We meet with the community leaders to seek permission and in order to pass information to other.
- We fix date and time
- And begin one on one and publicity for the crusade
- We continue intensive intercession and at the same time mobilising materials and ministers needed for the crusade

- We plan the programme and executes it
- The bait is usually effective in bringing the people if carefully and prayerfully determined.

It could be medicals or free food items.

At least one week of publicity raising their expectation in what christ would do for them

We thank God that our crusade programme have yielding result with some coming to church thereafter.

# Ijora 7up prayer crusade

# AREA BOYS EVANGELISM

- This involves ministration to area boys.
- These are loosely organised gangs of street teenagers and youths. They live on the streets. The usual place to find lagos area boys are under bridges, motor parks, drug and alcohol joints and market areas. We go to all these places. To minister to them. Their usual problems are drug abuse, homelessness, hunger.
- Anyone that recives christ and are ready for change are usually taken to undergo deliverance program for a period at the prayer city, with continous counsel and care in terms of basic need.
- With signs of socio-psychological improvement, we would encourage to learn work or get a job which would help them to be able to be responsible and start a better life.

# PROSTITUTE EVANGELISM

- A prostitute is a person, a woman in particular who engages in sexual activity for payment.
- They can be located in a brothel or prostitute joints.
- There are number of brothels in bariga, oyigbo, iddo, ijora 7up, obalende oshodi ojuelegba and in d=many different places in lagos.
- What we do is that we take the gospel to them a group,
- We paired ourself male and female to minister to the prostitute and their clients.

- Their immediate problems to be solved after they gave their lives to christ with the readiness to repent from the wayward lives are usually accommodation and what to eat.
- Our immediate solution is to take to prayercity for deliverance programme where these two challenges wouldn't be of immediate concern to them.
- Depending in their seriousness, lasting solution could provided by securing job for and help them to secure and accommodation which they could independently renewed from their earnings.
- And some have received total change of lives as a result of this.

# Area boys convert at MFM prayer city

# SUPERMARKET EVANGELISM

- Going to the supermarket to preach the gospel to shoppers.
- Many of the supermarket management don't allow it so we have to enter carefully and do window shopping while looking for opportunity to give the gospel materials to other buyers. When opportunity present itself we engage in conversation and lead them to christ.

October 7	6	4	Ozone shopping mall	
November 6	9	5	ozone	
November	11	3	TBS	

# FERRY EVANGELISM

- IN Ferry evangelism we take the gospel of christ to the people at the ferry terminals. At the terminal some passengers will be seated waiting for their ferry to arrive while some will have boarded. Some evangelists will be at the terminal preaching to those waiting while some will enter into available ferry to preach to those inside. We share gospel materials and lead them to christ. The method has been fine.
- Although some officials still frown at our religious activities while in some terminal we were not allowe at all to engage in ministrations

# AIRPORT EVANGELISM

- What is the concept about?

Preaching the gospel to those travelling using the airport. There are category of people that may not easily reached through other strategies like one on one or street.

The following method are being used in airport evangelism

1. Gospel Music concerts. This has been carried out 2 times since the commencement of this EEI MM2 airport. It is a programme of unhindered heavy gospel music and praise during which MFM anointed Gospel music groups and ministers took their turn to minister in songs. many of the travellers most of time could not resist the ministration as many are seen dancing singing along. As the song ministration is going some evangelists approaches the people one on one to give them the gospel material and possibly lead them to receive christ. The noise of this programme travel far.
2. One on one evangelism is done frequently
3. Facilitating Establishment of more MFM Bookshops at the airport.

# Challenges

Facilitate the establishment of a rehabilitation center to make the prostitute and area boys evangelism more promising.

Restrictions are still being experienced at supermarkets, ferry terminals, airports etc
